

Honkey Bitch - Curse of the Gypsy

Press/RELEASE/BIO -

Honkey Bitch announces the release of the new Album - "Curse of the Gypsy"

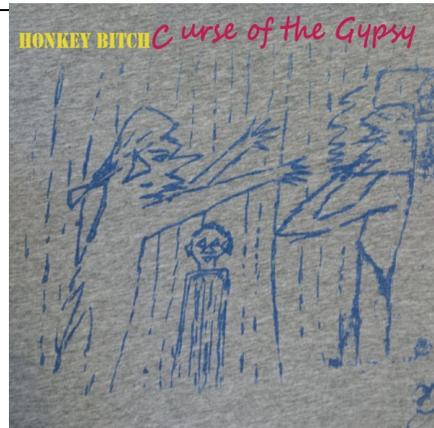

The Curse might be described as "that crazy Plague album". . . The first 3 songs are fast and crazy, with MadHouse capturing a initial impression of the Pandemic. The album slows down with a twisted impression of the blues, and then offers an alternative view of US political reality with "Tarzan the Ape Man" and "The Ultimate Plantation". Switching gears we offer tongue in cheek advise "Smell of Desperation", and "Tight Thighs" (funk). "Spy Movie" is our freakish attempt at pop music, and "Black on White" is our FreakRock instrumental. . .
