

# Monkey Jazz

## Honkey Bitch

The songs on Monkey Jazz are the product of the Friends Like Us Sessions, recorded at the Mighty Mutant Monkey Studios, a production of the Society of Mutants Music Production crew (me) . . .

Rick Ellis was the inspiration and coinstigator of the sessions. . . He would come by the house and we would record music and have epic bull sessions. . . He arranged all of the Jazz Standards, and I Will Survive, except for Autumn Leaves which I actually arranged. I did some post production arrangement and editing on a number of tunes. . . Being the producer, editor, engineer, and chief cook and bottle washer, I had plenty to do with this beast. Rick, however, being the best musician, and most competent and accomplished drummer I've ever seen, was a pleasure to work with. He taught me a number of things from the music world that I never thought I would know.
